

FUTURE

Foster Multiply and Connect Adult Education

NEWSLETTER - JULY 2019

The Project

FUTURE (*Foster, Multiply and Connect Adult Education*) is an Erasmus+ KA2 project in the field of Adult Education, aiming to investigate good practices among different organisations in order to create the right environment in adult education to embrace the digital revolution. In particular, the project objective is to analyse and understand possible future scenarios in the field of adult education, in relation to the use of digital tools and methodologies such as: educational processes, classroom dynamics, inclusive learning and adult learners teaching methodologies. FUTURE was born from an initiative of the European Digital Learning Network and its members.

Take a look at the FUTURE!

The FUTURE partners met for the 2nd Transnational Meeting in Piraeus, Greece, hosted by IDEC.

The meeting was a great opportunity to share and discuss the first project results. In particular, every partner delivered a presentation on the best practices collected on innovative methodologies for digital education, providing also practical sessions aimed at demonstrating the efficacy of the tools proposed.

With great commitment and peer collaboration, the FUTURE database is gradually taking form!
